## 2021-2022 Application:

# Educational Innovation Venture Grant

**In the body of the application repeat the name of the grant from the cover sheet.**

1. Provide a concise summary of the proposal.
2. Describe in detail how this project supports the selection criteria:
  - How does this grant project further promote one or more of the Foundation's current initiatives (expanding innovative learning opportunities, advancing technology, supporting early childhood [i.e. K-4] education)?
  - What district goals and/or state standards does this project address?
  - In what ways does the grant provide a service or learning experience that students would normally not receive?
  - In what ways is this project new and uniquely innovative?
  - Explain how the project will help raise student achievement.
  - How many students will directly benefit from the project this year?
  - Is training required to implement the project?
3. Describe how the success of this project will be measured. What data will be collected to illustrate this success?
4. How will the lessons learned, the benefits, and the challenges met from this grant project be shared with the recipient's building and/or department or other educators who might be interested in using this grant as the basis to apply for a Proven in Practice grant? How will the "success stories" be shared?
5. Is this project sustainable beyond the grant funding, e.g. will this grant have supplies that are reusable?
6. Attach an itemized budget of how the grant funds will be spent.

**2021-2022 Application:**

## **Proven in Practice Venture Grant**

**In the body of the application repeat the name of the grant from the cover sheet.**

1. Provide a concise summary of the original project: describe the challenges the grantees encountered in implementing it; describe how this grant project further promoted one or more of the Foundation's current initiatives (expanding innovative learning opportunities, advancing technology, supporting early childhood [i.e. K-4] education); and describe how the project benefitted students.
2. Describe how you obtained details about the purpose, implementation challenges, and "success stories" of this project. (e.g. classroom observations, presentations of the data, discussions with the original recipients and/or administrators who observed the project)
3. At the conclusion of the original project, was a request made to the school district to continue the funding?
4. Is training/certification required to implement the project?
5. How many students will directly benefit from the project this year?
6. Describe how the success of this project will be measured and shared. What data will be collected to illustrate this success?
7. Attach an itemized budget of how the grant funds will be spent.
